TRAINING AND INTERNSHIP

Data Analyst Intern

Ahana System and Solution Pvt.Ltd

📅 Apr 2024 - Present 📍 Bengaluru

- Conducted detailed data analysis to support decision-making processes for auto financing services.
- Developed and maintained dashboards to visualize key performance indicators (KPIs) and business metrics.
- Extracted, cleaned, and transformed large datasets to ensure data integrity and accuracy. Collaborated with cross-functional teams to identify data requirements and deliver actionable insights.

Web Technology Intern

X-works

📅 Jan 2024 – Mar 2024 📍 Bengaluru

- Developed a user-friendly dashboard for monitoring Bitcoin trends and data. Implemented responsive web design to ensure compatibility across various devices and screen sizes. Created registration and login forms with secure authentication mechanisms.
- Utilized HTML, CSS, and JavaScript to build interactive and visually appealing web pages. Collaborated with the development team to integrate backend services with the front-end interface.
- Technology: Python, SQL, Excel, Tableau, Power BI.

PROJECTS

Project 1: Predicting House Prices (ML Project)

- **Objective:** Develop a linear regression model in Python to predict house prices based on room count.
- **Outcome:** Demonstrated proficiency in machine learning concepts and improved predictive analytics capabilities.
- **Technology:** Python.

Project 2: Hospital Management System

- **Objective:** Design and implement a Java-based Hospital Management System to showcase object-oriented programming skills.
- **Outcome:** Successfully executed a comprehensive Hospital Management System, emphasizing usability and efficiency.
- **Technology:** Java, Object-Oriented Programming (OOP).

Project 3: Kotak Mahendra Prime Limited Project

- **Objective:** Analyze and optimize data processes to support decision-making for auto financing services.
- **Outcome:** Provided actionable insights and developed visualizations that improved strategic decisions and loan approval processes.
- **Technology:** Python, SQL, Excel, Tableau, Power BI.

EDUCATION

Master of Computer Applications (MCA)

Nitte Meenakshi Institute of Technology, Bengaluru

📅 Oct 2022 - Aug 2024 📍 Bengaluru, INDIA

Bachelor of Computer Application (BCA)

Pataliputra University Patna, Bihar

📅 July 2018 - Dec 2021 📍 Bihar, INDIA

SKILLS

Programming Languages: C/C++ Java Python

Database: MySQL MongoDB SQL

Web Technologies: JavaScript HTML CSS

React.JS Node.js

Frameworks: Selenium Cucumber

Version Control: Git (Beginner)

Tools: VS Code Eclipse Power BI

NetBeans IntelliJ IDEA MS Office

STRENGTHS

Team player adaptable Persuasive

Problem Solver Hard -Working(15/24)

Customer Support Technical Support

LANGUAGE

English Hindi Bhojpuri

CERTIFICATES

- Cloud Computing Distributed System (NPTEL).
- Artificial intelligence & Machine learning using Python. ("Workshop")
- AWS Lambda foundation (AWS).
- Backtracking Algorithm (Great Learning).
- Fundamental cloud computing

HOBBIES
